

8 February 1983

NOTE FOR: Executive Director

FROM: EA/DDCI

1. To follow up on the discussion at today's DCI Staff Meeting, the DDCI would like you to form a task force of knowledgeable people to provide the DCI the information he needs to make a strong case relatively soon to the President against the Civil Service Reform measures now being considered. Specifically, he would like you to concentrate on:

- Preserving the CIARDS retirement age at 50.
- Emphasizing what makes our Agency different from the rest of Government.
- Conducting a canvas of employees covered by CIARDS to come up with relatively firm statistics reflecting how many of them would walk out the door if these reforms were adopted.

2. On a separate matter, the DDCI opposes having OMB or any other outside organization survey our SIS positions.
